

HOLMAN STREETScape

HOUSTON, TEXAS

Holman Street is a major roadway for access to the main campus of Houston Community College and to the METRORail station and other nearby transit services. Holman Street distinguishes itself from other streets within Midtown by featuring streetscape that builds on connections to the light rail line and other nearby amenities, and sets a precedent for future streetscape redevelopments within the community.

With the improvement of Holman Street also comes private development including Mid Main projects such as apartments, restaurants, retail shops and parking, and the Midtown Arts & Theater Center Houston (MATCH), which will serve as a venue for various exhibits and performances. The new structure, located at 3400 Main St., will include a main theater, three black-box theaters, two small performance areas, a large gallery space, office space and a coffee and wine bar.
