# REQUIREMENT TO PROVIDE MEANINGFUL ACCESS TO LIMITED ENGLISH PROFICIENCY (LEP) PERSONS MIDTOWN FOUR FACTOR ANALYSIS

Factor 1 Assessing the Number or Proportion of LEP Persons served or Encountered in Eligible Service Population

(a) How LEP persons interact with the recipient's agency

LEP individuals would come in contact with Midtown during the planning, procurement, and construction of federally-approved transit and pedestrian capital projects.

(b) Identification of LEP communities, and assessing the number or proportion of LEP persons from each language group to determine the appropriate language services for each language group. The best, most comprehensive table to identify Limited English Proficiency levels by their population is the American Community Survey of Language Spoken at Home by Ability to Speak English (Table B16001); however, this table has not been updated since 2015. Midtown decided to continue to use this table along with other tables that have rore up to date information. For this data, Midtown's population is considered all US Censur, acts that have a portion within Midtown boundaries.

According to the American Community Survey 2015. Year data, there is 5.8 percent of the transit service area population who speak English "less the win" that speak a language other than English at home. Midtown used all US Census tracts that pontain any portion of the management district boundary. The percentage of Spanish spectring indicates who reported speaking English "less than well" is 3.0 percent or 963 individues of the stall management district population.

(c) The literacy skills of LEP populations in their native languages, in order to determine whether translation of documents will be an effective practice

Midtown has not monitored the literacy rates of lar populations in their native languages; however, Midtown provides both written and spaten translations in order to serve the LEP population effectively. Midtown will continue to prove written translations in Spanish but will document when requested to translate information oran. Requests for oral translations in any languages will be documented as well.

(d) Whether LEP persons are undergoine by the ecipient due to language barriers

Presently, there are no known anguage barrier that cause LEP persons to be underserved.

Midtown will notify LEP persons of the many and will monitor complaints about barriers.

Factor 2: Assessing the Freque v w. Which LEP Individuals Come into Contact with your programs, activities, and services

Midtown does not precide transit services, rather utilizes FTA funds in order to develop pedestrian infrastructure that chances people's ability to easily access the transit services provided by Houston METRO. So, the most likely instances that LEP persons would encounter the projects conducted by Midtown are during procurement or construction. Midtown makes the fact known during all procurement endeavors, advertising efforts, public meetings, and other instances that documents, instructions, and other important materials can be translated at no cost to the user. Very rarely does any of the construction require any detours or significant changes to accessing public transportation, so there is minimal disruption for transit users. In instances where there are disruptions, Midtown works with Houston METRO to address any concerns while keeping LEP persons in mind.

Factor 3: Assessing the Nature and Importance of Program, Activity or Service

As stated in the Factor 2 analysis, Midtown does not provide transit services but does utilize FTA funds for the construction of pedestrian infrastructure. The construction of sidewalks, ADA ramps, pedestrian lighting and signalization provides benefit to all users of transit services but

does not have any unique impact on LEP persons. Midtown is able to translate all important documents and instructions in Spanish and any other language upon request.

#### Factor 4: Assessing the Resources Available to Transit and Costs

Midtown offers many opportunities for LEP persons to fully access information regarding the construction projects. Midtown Management District staff has the ability to proficiently translate oral conversations as well as written documentation from English to Spanish, or vice versa. Since no language met the threshold of safe harbor, Midtown does not anticipate many requested translations. Costs from any requested translations (either due to staff time or other translation services) and printing of translated documents might range from \$500 to \$1,500 a year. All costs are absorbed into the Midtown Management District's annual budget.

#### LANGUAGE ASSISTANCE PLAN (LAP) IMPLEMENTATION PLAN

Task 1 - Identifying LEP Individuals Who Need Language Assistance

#### Number or Proportion of LEP Persons served or Encountered in Eligible Service Population

According to the American Community Surveys included in the LEP Four Factor Analysis, no language was identified as meeting the Safe Harbor threshold of 1,000 individuals or 5% of the population. Midtown has already translated the public notice, complaint procedures, and compliant form into Spanish and will maintain the translation on their website.

# <u>Frequency with Which LEP Individuals Come Into Contact with your Programs, Activities and Services</u>

#### Task 3 – Providing Notice to LEP Persons

The Title VI Notice to the Public will be posted on Midtown offices, website, and at other strategic locations in Midtown facilities. The Title VI Notice to the Public has included a statement about translation availability at no cost

#### Task 4 – Monitoring and Evaluating Language Access Plan

Midtown will monitor the number of requests for translation for transit programs and services and note any comments and complaints about translations or language assistance. Midtown has created an internal log for all requests for translation assistance that logs the date, the requested language, and the actions taken to accommodate the request. The Language Access Plan will be updated every three years.

#### Task 5 - Training Staff

Training in LEP language assistance measures will be provided in conjunction with orientation for new employees to identify resources and procedures when communicating with LEPs. All new staff members will be informed of the Title VI plan and all language assistance measures that all employees of Midtown must perform.

#### MINORITY REPRESENTATION ON PLANNING AND ADVISORY BODIES

Midtown will actively encourage committee membership by all interested parties regardless of race, color, or national origin. Currently, Midtown has an appointed Board of Directors with 17 active members, and there are three open positions on the Board.

Board members are required to be residents, property owners, or an agent of a property owner. When there is a vacancy, the Board publicly solicits invitations (through announcements at their board meetings). Midtown uses a Nominating Committee process to interview the applicants and to determine who would best have the qualifications to serve on the Midtown board. Once vetted, Midtown makes a recommendation to Houston City Council for these decisions. The City Council then votes on these positions to codify the action.

Below is the population demographic and Board of Directors breakdown.
